

FOR THE TEACHER:

APPLE BOOKMARK

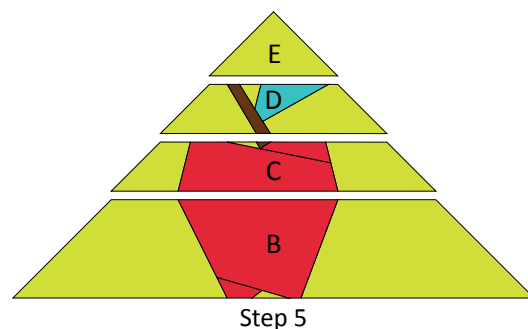

A free pattern from The Electric Quilt Company!

www.electricquilt.com

This little apple bookmark is a quick and easy gift. It slides over the corner of a page to keep your place for that light summer reading! Pull out your scrap bin and whip up one (or two or three!) for your favorite teacher.

- 1 Print the pattern from page 2 of this PDF. Make sure Page Scaling is set to None. You can print on regular printer paper, or use EQ Printables Quilter's Newsprint for even easier foundation piecing!
- 2 Cut out the pattern pieces on the dotted seam allowance lines.
- 3 Use the A unit as a template for cutting out one back piece and two lining pieces.
- 4 Use the E unit to cut a patch from the apple background fabric.
- 5 Foundation piece the B, C, and D units. Add patches according to the numbers printed on the pattern, stitch on the lines between the patches. Trim the seam allowance and press after each new patch is added. See our website for more info on basic foundation piecing.
- 6 Stitch the units together to complete the apple triangle block.
- 7 Pin the apple triangle block and the back piece right sides together and stitch along the two sides.
- 8 Pin the two lining pieces right sides together and stitch along the two sides.
- 9 Trim the seam allowances to $1/8$ " and clip the corners on both the apple+back and the lining pieces.
- 10 Keep the apple+back piece *wrong* side out and turn the lining piece *right* side out. Tuck the lining into the apple+back.
- 11 Pin the two pieces together and stitch around the base of the triangles. Leave a 2" opening for turning.
- 12 Turn the piece right side out and hand stitch the opening close.
- 13 Press to help flatten the bookmark and it's ready for gifting!
